Attendees to this open house will be able to learn more about the project, review the proposed alignment, and have an opportunity to provide public comment. This will be an informational open house with maps available showing the various trails and other facilities identified to date. No formal presentation is planned so come when you are able.

Bucks County Planning Commission staff will be available to discuss and answer questions, take public input, and share information regarding the project.

This project financed in part by a grant from the Community Conservation Partnership Program under the administration of the Pennsylvania Department of Conservation and Natural Resources, Bureau of Recreation and Conservation
